** available in stretches of 150%.

Features

Prevents moisture escaping from the packaged goods. Protects cargo against the penetration of odours from the outside and inside.

Why foodsafe+?

For every food industry

Our film can come into contact with all kinds of food. It will protect both meat products, fruits, vegetables, dairy products and fish. It can wrap both individual products and entire pallets.

Straight from the manufacturer

As a manufacturer of stretch film, we offer the best product quality, supported by appropriate certificates and research.

Tailored to the Customer's needs

Foodsafe+ can be produced as a manual, machine or jumbo film. In thicknesses from **8 to 35 µm**

Perfect protection

Foodsafe+ protects the products perfectly. Prevents the cargo from drying out. Prevents the transfer of odors between products in the refrigerator.

High efficiency

Foodsafe+ film is much more efficient than classic food films available in the retail offer.
